ROM 500 TRAILER

The ROM 500 is fitted with a number of features as standard, including:

- Robust, galvanised frame
- Two large sealable toolboxes
- Durable materials, including flexible polyethylene
- Advanced noise damping package
- Heat exchanger (diesel version)

• 600 litre Polyethylene Water Tank excellently protected due to the fact that it is integrated into the trailer.

NOISE INSULATED

The ROM 500 is fitted with an advanced Noise-insulating package as standard. This prevents complaints from people in your vicinity and ensures that you can conduct your work comfortably and with pleasure.

TOOLBOXES & OPEN STORAGE COMPARTMENT

Two large, lockable, rain-resistant toolboxes are fitted to either side of the trailer. The new ROM 500 also has an optional handy open storage box for items such as your hoses.

ROM 500 Trailer characteristics:

Lightweight and compact

The ROM 500 trailer jetter is suitable for towing with medium-sized commercial vehicles such as VW Transporter, MB Vito, Renault Trafic / Vauxhall Vivaro, Toyota Hiace and Ford Transit. 785kgs braked trailer.

ROM500 trailer jetter operation

The new ROM 500 sewer jetting trailer is exceptionally user friendly.

Designed with perfect road holding in mind.

Its uniquely stylish design and proven ROM technology make the ROM 500 trailer jetter an asset for your company or municipal council.

The low centre of gravity ensures unprecedented stable and safe road holding with both empty and full water tanks.

The innovative design also has a very low drag coefficient (fuel saving).

Working easily and ergonomically

The unit combines proven techniques with user friendly simplicity. You will be surprised how easy it is to work with the ROM500 trailer jetter. Thanks to the integrated ease of operation and hydraulic high pressure hose reel, you and your employees work easier and more productive than ever.

Reliable construction

The solid construction and steady engine/pump combinations (Kubota engines and SPECK high pressure pumps) ensure you of a durable solution.

Galvanised hydraulically driven high pressure reel

The ROM 500 trailer jetter is equipped with hydraulically driven high pressure reel by default, meaning that you will experience the optimal and ergonomically ease of use time and time again.

- Manual hose guide system
- 80m of 13mm flexible sewer jetting hose
- Mounted ergonomically at working height
- Water filling Hose Reel galvanized 50m 19mm hose

Please... recycle this Brochure when you have finished with it.
